- ♦ As stated previously, new traffic signalization work will begin at Market & King Streets sometime this month.
- ♦ The electrical conduit work is underway again at Fulton Lane and King Street and will take two weeks to complete. Fulton Lane may be accessed by way of Archdale Street. The Peterson Lot is operational during this period.
- ♦ Between Fulton Lane and Clifford Street this week, hardscaping preparation is in motion with the asphalt and soil removal. The base will be poured next week and bluestone installation follows.
- ♦ For the next two weeks, repairs to the sewer laterals between Clifford & Queen Streets will be taking place.
- ♦ It is possible that the electrical vault scheduled to be installed next to the County Garage on King Street near the King/Queen intersection could be placed early tomorrow morning, Friday the 9th. A crane will be positioned away from the intersection, but traffic could be interrupted for a brief period as the vault is being lowered into the ground. Flagmen will be on-site. If it does not happen tomorrow, please bear with us. It will occur early next week.
- ♦ Beginning Monday, January 12th, King Street will be closed to thru traffic between Queen & Broad Streets for a period of six weeks to complete the vault installation, remove trolley tracks and replace the water main and laterals. Please carefully read the following to understand how traffic will be accommodated and negotiated in this affected block.

1. All southbound traffic on King Street must turn right at Queen Street and detour to Rutledge Avenue to access Broad Street. Detour signs will be in place. Westbound

traffic on Queen Street will proceed through the King/Queen intersection following the detour.

2. This block on King Street will temporarily be changed to two-way for local traffic only. Vehicles can turn north on to King Street from Broad Street to access the Berlin and Tellis Lots. The Judicial Center exits will be operable.

3. Parkers exiting the City's Queen Street Garage at 93 Queen Street will be required to turn LEFT out of the garage and follow the detour to Rutledge Avenue. Please respect the Harleston Village neighborhood by using Rutledge Avenue.

As work in this block and the area progresses, the traffic patterns will change. Please be prepared.

*Growth demands
a temporary
surrender of
security. Unknown*
